Shutters

Hennis Enterprises offers over 600 shapes and sizes of shutters to fit all of your needs. Styles include the traditional Board & Batten, Louvered, Plank, and Raised Panel designs. If you do not see what you are looking for, we have created many custom designs for our customers over the years. Let us know what you are looking for, and our design team will work with you to meet all of your specific needs.

At Hennis Enterprises we stand apart from our competitors for several reasons. Our shutters are a higher density than most other polyurethane molders deliver. At thirteen pounds per cubic foot, our shutters are more durable than the average 10-12 pounds per cubic foot supplied by most manufacturers. Also, in a joint effort with our distributors, we have developed an installation method for our polyurethane shutters that require no screws. This adhesive only system is fast, easy, inexpensive, and requires no penetration of the stucco surface.

Shutter Notes

A "T" suffix in the part number indicates the shutter has a diamond cut-out.  
"AL" indicates arch top left, "AR" indicates arch top right.  
SP indicates the short point height.  
An "S" suffix indicates a simulated split center board.  
An "X" suffix indicates the shutter has a 1" thickness

The three pictures (2 above, 1 to left) of our End Batten Shutters on a small apartment building were installed in 2001. The building is located a few miles north of Malibu, CA on beachfront property. After eight years of ocean salt air, wind, and direct sunshine, the shutters look brand new. As you can see, our shutters have fared much better than the wood fence.

Style “M” Shutter Notes  
All sizes have 1" depth, and other dimensions as follows:  
12"- 14" Width have 1 ½" Width Louver and Rail  
18"- 20" Width Have 2 ¼" Width Louver and Rail  
24"+ Width have 3" Width Louver and Rail  
X - Indicates 1 ½" Wide Louver and 2 ¼" Wide Rail  
Y - Indicates 1 ½" Wide Louver and 2 ½" Wide x 1 ½" Deep Rail  
Z - Indicates 1 ½" Wide Louver and 3 ½" Wide x 1 ½" Deep Rail  
C - Indicates 1 ½" Wide Louver and Rail

Our “SH-X” Louvered Shutters have a small 1/4" trim molding atop the rail as shown in the diagram to the left. This molding adds a beautiful touch that makes these shutters much more distinctive than a standard louvered shutter.
